

Akash Ningaiah Sthavaramatha

ENGINEERING STUDENT

Jaraganahalli, Bengaluru | +91 9900330256 | akashns990033@gmail.com

Summary

Highly motivated engineering student with a strong foundation in Artificial Intelligence (AI) and machine learning techniques (e.g., Scikit learn) seeking an internship. Eager to contribute to cutting-edge research projects by applying problem-solving and critical thinking skills to develop innovative solutions

Experience

Goldman Sachs SWE Virtual Experience (Forage)	2024
<ul style="list-style-type: none">Assessed IT security as governance analyst.Identified outdated password hashing algorithm.Proposed security improvements via password policy memo.	
J.P. Morgan SWE Virtual Experience (Forage)	2024
<ul style="list-style-type: none">Built dev environment for web application.Fixed code to ensure accurate application output.Implemented Perspective library for real-time trader dashboards.	
Mastercard Cybersecurity Virtual Experience (Forage)	2024
<ul style="list-style-type: none">Analyzed security threats as Security Awareness Analyst.Identified training gaps and implemented security training programs.	

Education

Don Bosco Institute Of Technology	2024
--	-------------

2021-2025(expected graduation)

Degree: B.E | Specialization: Artificial intelligence & Machine Learning

CGPA : 8.6

Skills & abilities

- Problem Solving • Critical thinking • Creativity
- Python • C • C++ • Java • SQL • Git

Certifications

- Harvard CS50P – Introduction to Programming with Python
- Harvard CS50AI – Introduction to AI
- Elements of AI
- Stanford University – Supervised Machine Learning(Coursera)
